## Intravenous Therapy at AIMS Institute

### *An Overview*

It is recommended that you initiate IV therapy as part of your treatment program. You will be prescribed a certain number of treatments by your physician. *Please schedule all appointments with our reception team.*

#### **Prior to scheduling your treatments:**

1. **IV Therapy Consent:** Please read and sign our IV Consent Form. This will be sent to you via the CHARM Portal or you can request a paper copy from our reception team.

#### **Preparing for your first treatment:**

- Please come to your visit well hydrated and bring a bottle of water with you to the visit. Staying hydrated will prevent side effects during treatment.
- Please bring a snack with you to your visit in case you get hungry. The session will last approximately 1.5-2 hours or longer depending on your tolerance.
- Please dress warmly as patients sometimes feel cold while getting an IV infusion.
- If you have any questions prior to your appointment, please send a message to Dr. Giles via the CHARM portal.

#### **Cost & Finances:**

- Below is the price range for our IV treatments:

Hydration	\$230-290
Nutrition	\$320-375
Vitamin C	\$240-375
Iron	\$290-410

- We do not bill insurance for IV therapy, however, we provide a detailed superbill for you to submit to your insurance company. It's worth submitting, because sometimes an insurance company will reimburse.
- Please note late cancellations within 48 hours of appointment are subject to a \$150 fee.
